Outlines for the Mandatory **Commercial** course is being developed but there is currently no approved course providers for this Mandatory Course Specialty.

To find course providers of the Mandatory Commercial and Mandatory Property Management course specialties (when they become available), please refer to the Division website (www.realestate.utah.gov), then, under the Real Estate tab please click the Qualifying & Continuing Education Search Button that is found in the blue box labeled Education. In Step three of the course search process, in the box labeled Course Title Contains, insert the words "Mandatory Commercial" or "Mandatory Property Management" for approved courses and course providers of these specialties as they become available.

We are again reminding each of our active real estate licensees of this upcoming procedural change now so that you will have advance notice of the new CE course requirement and you can plan and act accordingly.

Remember, all real estate licensees who will be renewing their license on active status after December 31, 2019 are now required to have completed a Mandatory 3-Hour Course as part of their CE renewal requirement.

The Division and Real Estate Commission are excited to introduce this new CE Course that will address current topics of industry concern, areas of confusion, common misconceptions, disciplinary actions (and how to avoid them), etc.

We thank the Real Estate Commission and Kreg Wagner from the Utah Association of Realtors® for their thoughtful involvement and wisdom in supporting and formulating this course. We also thank those individuals who worked on the objectives for this Mandatory Course as well as those who were actively engaged in the course outline preparation.

We are confident that requiring licensees to complete this specific course will not only help to address common areas of concern, but also introduce a universal and consistent training standard as the real estate industry continues to advance and evolve in the years to come.
